Mina AI × *Reblues*

We built Mina AI's brand *in two weeks.*

Logo, brand kit, launch film, social cutdowns and print for an AI workforce company.

About *Mina AI*

01

The *logo.*

A mark and wordmark, drawn on a construction grid.

Typography *and colour.*

Space Grotesk for headlines, Manrope for body text. A blue palette on navy and black.

II

The films

FULL FILM · 30-SECOND CUT · SOCIAL CUTDOWNS

The film opens on *the old way.*

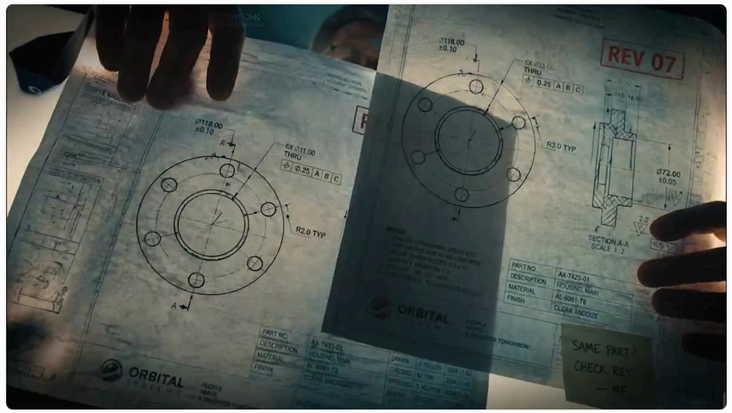

AI-generated clips with cinematic direction, iterated until every shot held. The first 30 seconds build tension: follow-up emails, paperwork, drawings by hand.

Then the *AI workforce* takes over.

The product carries the second half: the company brain, then AI workers deployed one at a time.

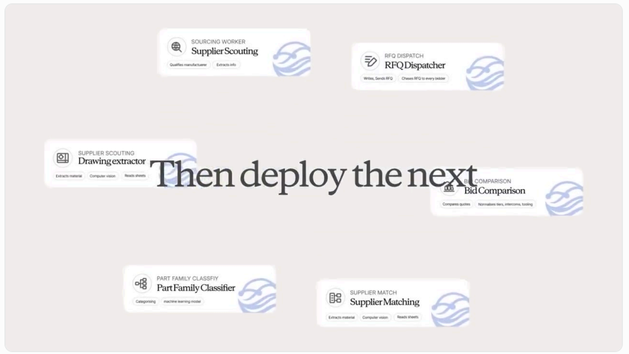

It closes on one line: “The AI workforce is already here.”

03

Storyboarded *first.*

Every frame planned in Figma
